

Comprehensive Enterprise Resource Planning (ERP) Software Solution for Chambers and Associations

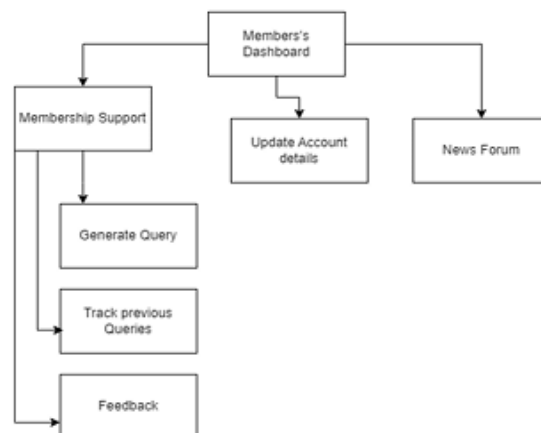

Group L

This is the flow chart given in the description pdf:

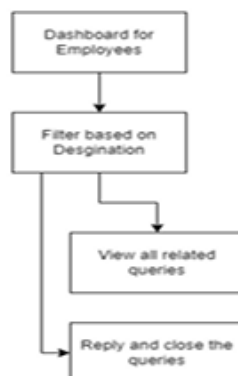

Membership Registration

Members Dashboard

Employees' Dashboard

We almost implemented all the features of the ERP system with little deviation in the member's registration where in our system, members can choose their login credentials which are later approved by employees for successful login of the member.

We added a feature “review button” in which members can give reviews and all the other members and employees can view them.
